Jeanne,

Torrado Construction is still currently LBE certified until July of 2014 when another affidavit will be due at that time. You will retain the same number.

Subject: Expired LBE Cert Follow up

Good Afternoon Elaine,

I am following up on our LBE Recertification status. We forwarded all documents to your office in June. We were contacted by your office in early July to follow up Angela (sorry no last name) asked us to refax the paperwork we missed checking off a box on page 1, which we faxed to her on July 8th. To date we have not received the renewal certificate or any formal declaration from your office. I have also left a voicemail for you.

We are in the midst of bidding a public work project and need the Newest LBE Certification in order to furnish our bid on a timely basis so it is rather urgent that we hear from someone in your office as soon as possible.

All related documents are attached. If you need any additional information please contact our office at your earliest convenience

Thank you in advance for your assistance in expediting this.
